

A CALL TO THE WOMEN OF JAPAN AND THE WORLD:

Follow in the footsteps of Fukushima's Women: Say "No!" to Nuclear Power.

TAKE A STAND. SIT IN PROTEST WITH WOMEN ACROSS JAPAN.

sit-in, october 30 – november 5

In front of the Ministry of Economy, Trade and Industry
(METI)

September 22: As Prime Minister Noda declared he would "raise Japan's safety of nuclear power generation to the highest level in the world" at the U.N. meeting on nuclear safety in New York, women demonstrated outside the United Nations protesting, "How dare you talk about nuclear safety when you cannot even protect the children of Fukushima! Do not let the suffering of Fukushima's people go to waste. Stop the world's nuclear power plants!" On the flight home, we said to each other, "We should follow in the footsteps of the Fukushima women and gather women from across the nation to stage a sit-in!"

Even though the Fukushima accident is ongoing and high levels of radiation are found in Fukushima, on September 30th the Japanese government lifted evacuation orders in the Emergency Evacuation Preparation Zone. Fukushima women have rallied, saying, "We shall not abandon children in this war zone drenched in invisible radiation! We will no longer

Sit-in

Join the protest:

Where

METI, Tokyo Place
1-3-1 Kasumigaseki
Chiyoda-ku, Tokyo

tolerate nuclear power!" We have heard their call and we too, have decided to take a stand.

- Support all children's right to evacuate! *
- Stop the restart of nuclear power plants across Japan and let us live in security .

We are gathering fellow supporters :

- Do not forget rain/cold protection as well as something to sit on.
- We also welcome those who can contribute their spirit of solidarity to the cause or those wishing to donate for participant transportation fees.
